1. **Preparing for a Group Discussion:** While GD reflects the inherent qualities of an individual, appearing for it unprepared may not augur well for you. These tips would help you prepare for GDs:
Reading: This is the first and the most crucial step in preparation. This is a never ending process and the more you read, the better you are in your thoughts. While you may read anything to everything, you must ensure that you are in good touch with current affairs, the debates and hot topics of discussion and also with the latest in the IT and ITES industry. Chances are the topics would be around these. Read both for the thoughts as well as for data. Also read multiple view points on the same topic and then create your point of view with rationale. Also create answers for counter arguments for your point of view. The electronic media also will be of good use here. **Mocks:** Create an informal GD group and meet regularly to discuss and exchange feedback. This is the best way to prepare. This would give you a good idea about your thoughts and how well can you convince. Remember, it is important that you are able to express your thoughts well. The better you perform in these mocks the better would be your chances to perform on the final day. Also try to interact and participate in other GD groups. This will develop in you a skill to discuss with unknown people as well.

2. **During the Group Discussion:**
